

Reflective Living with Dr. Angela

Born to Lead

Did you know that you were born to lead?

You were designed to have dominion and authority over your own life. Self leadership should not be underestimated. You are the architect, the conductor, the commander, the captain, and the CEO of your own success. If you will ever possess the land flowing with milk and honey (that is to say the good life and your best life), you must take authority over the enemies within. These enemies are all of your characteristics and habits that keep you from being your best self.

So your first act of leadership is to galvanize and to motivate yourself to take charge over you own success.

Once you begin to triumph over you own internal battles, then you will know that you were indeed, born to lead.

So remember to give yourself the gift of reflection.
