

Reflective Living with Dr. Angela

The Spirit of Love

Are you aware of the spirit that you bring to love?

Examine your heart to determine if you bring purity, goodness, and peace to love. Under the guise of love, sometimes we bring the spirit of need, greed, suspicion, and deceit.

Evaluate yourself to see if you want affection or protection, personal companionship or corporate partnership? Do you wish to enjoy another or simply take them away from everyone else?

Do you want to be happy or do you want to be right? When all is said and done, do you want love or do you want power?

The greatest love is planted in the soil of purity and honorable intention. And this is important because the root of your love will determine the fruit of your love.

So remember to give yourself the gift of reflection.
